- ◆ Urdu

Education

(2023 - Cont)

National University of Modern Languages, Rawalpindi

BS Computer Science

CGPA: 4.00

Experience

Personal Projects:

Book Search Website:

- Designed a responsive React Book Search Website using OpenLibrary API. Implemented features like dynamic search, detailed book view with meta-data, and smooth navigation.

Notes Keeping Website:

- Built a To-Do list or notes keeping website, where users can add their tasks or important notes, having features of editing it and deleting it, using React JS and React Bootstrap.

NewsApp Website:

- Designed a NewsApp Website using React JS using News API, that gives latest news from the field of sports. User have the choice to select the category (i.e, cricket, football) and can get latest updates about that sport.

Other Projects:

Text Utility Website

Weather App using OpenWeather API

Food Ordering Website
